

P TAMIL SELVAN

Junior Full Stack Developer

Tirupattur, Tamil Nadu – 635 601 ▪ +91 90250 44967 ▪ tamilselvan962913@gmail.com

PROFESSIONAL SUMMARY

Motivated Junior Full Stack Developer at Drylogics Solutions, where I started as an intern and grew into a full-time role delivering features across multiple client projects — payroll & HRMS, BI, desktop, and public-sector procurement platforms. Skilled in React, TypeScript, and Material-UI on the frontend, and in Ruby on Rails and Python on the backend, with hands-on automated testing using Playwright and Cucumber (BDD). A strong analytical thinker with an M.Sc. in Mathematics, committed to writing clean code, catching defects early, and delivering reliable, user-focused software.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6), Material-UI (MUI), HTML, CSS

State Management: Redux, Redux Toolkit, TanStack Query

Forms & Validation: React Hook Form, Zod

Backend: Ruby on Rails, Python, Django, Django REST Framework, FastAPI, Celery

QA & Testing: Playwright, Cucumber (BDD), Vitest, React Testing Library, Manual & Functional Testing

Tools & Platforms: Git, Vite, ESLint, Prettier, MS Office, MS Windows

EXPERIENCE — all delivered at Drylogics Solutions

Started as an intern and converted to a full-time developer; delivered features across multiple client projects with growing ownership.

1

Merkensoft — Payroll & HRMS Web Application

Ruby on Rails · React · TypeScript · Material-UI · Playwright · Cucumber

- Built responsive frontend modules and an automated QA test suite for a payroll & HRMS platform covering attendance, statutory compliance (PF, ESI, PT, TDS), loans, and employee self-service.
- Implemented data-driven UI with MUI Data Grid and forms validated via React Hook Form and Zod; authored Playwright + Cucumber (BDD) tests to catch regressions early.

2

PlanetBids — Public-Sector e-Procurement Platform

Python · Django · Django REST Framework · Celery · React · TanStack Query

- Contributed to a procurement platform used by local governments, utilities, public works, and education agencies across the U.S. to run bidding, vendor certification, and agency contract workflows.
- Developed and maintained backend REST APIs in Python using Django and Django REST Framework, with Celery background jobs for procurement processing.
- Built React frontend features (TanStack Query, React Hook Form, Zod) on the in-house Gravity design system and performed functional QA across bid-management and vendor workflows.

3

BI Platform — Excel Intelligence & Knowledge Graph

Python · FastAPI · PostgreSQL · React · TypeScript · Material-UI

- Developed frontend components and dashboards that transform Excel/CSV workbooks into structured, queryable business knowledge.
- Integrated the React UI with FastAPI backend services and tested data-visualization and reporting workflows.

4

IRIS Design Studio — Desktop Application

Ruby on Rails · Electron · React · TypeScript · Redux Toolkit

- Contributed UI features to a cross-platform desktop design studio built with Electron and React, including image-editing and AI-assisted tools.
- Performed functional testing across desktop workflows to ensure a stable, consistent user experience.

EDUCATION

M.Sc. Mathematics

Government Arts College (Autonomous) — Coimbatore, Tamil Nadu

2022 – 2024

B.Sc. Mathematics

Sri Vidya Mandir Arts & Science College — Katteri, Uthangarai

2019 – 2022

STRENGTHS

- Hard & smart worker
- Quick learner
- Flexible and adaptable
- Analytical problem-solving
